

How to Play Teaching Guides:

#40 Goa

This guide is intended for use by owners of the game looking for a quick outline with a recommended order and structure with which to teach the game. To hear a sample explanation or to learn the game yourself listen to episode #40 of The How to Play Podcast available at www.howtoplaypodcast.com

1 The Hook - What the Game is About

"Welcome to Goa.. You are a Portuguese merchant trying to profit on the colonies of India. In this game we will play eight rounds divided into two major parts; an auction phase and an action phase.

In the auction phase you will attempt to win auctions to purchase tiles that will give you the major resources of spices, ships, colonists as well as special abilities. Then in the action phase we will take turns playing an action. Actions involve players choosing either to collect resources or spending resources to advance on one of five progress tracks. In each round you will get three actions.

Advancing on progress tracks is one of the major goals of the game as it will allow you to collect resources faster as well as score you victory points at the end of the game. So a round involves a set of auctions, and then each player taking 3 actions one at a time by collecting resources OR using their resources to advance on the progress tracks.

After 8 of these rounds the players score most of their points based on the amount of progress made on their five tracks as well as for a few other categories. Then the player with the most points will win the game.
